

Instructions to Authors

1. Legal requirements

The author(s) guarantee(s) that the manuscript will not be published elsewhere in any language without the consent of the copyright holders, that the rights of third parties will not be violated, and that the publisher will not be held legally responsible should there be any claims for compensation.

Authors wishing to include figures or text passages that have already been published elsewhere are required to obtain permission from the copyright holder(s) and to include evidence that such permission has been granted when submitting their papers. Any material received without such evidence will be assumed to originate from the authors.

Manuscripts must be accompanied by the "Copyright Transfer Statement". The form is regularly published in this journal or can be obtained from <http://link.springer.de>. Please see page A2 for details relating to copyright.

2. Editorial procedure

Authors should submit their manuscripts in 3 sets together with 1 set of illustrations directly to the editor whose field of competence, indicated by the keywords in the list of editors, is closest to the subject matter of the work. In case of doubt the manuscripts may be submitted to the editor-in-chief.

Please do not transmit electronic data to the publisher until your manuscript has been reviewed and accepted for publication. Please follow the instructions below.

The manuscripts and the figures will not normally be returned, unless specifically requested by the authors.

Short communications for rapid publication (max. 5 printed pages)

Comment-and-Reply. "Comments" refer to papers already published in CMT. They will be published together with the reply by the author(s) of the commented paper in the "Comment-and-Reply" section.

Short Communication and *Comment-and-Reply* should be submitted in the same way as original articles.

3. Manuscript preparation

General remarks

Manuscripts should be written in LaTeX for which Springer-Verlag offers the macropackage LaTeX2e document class *svjour* (see Sect. 4).

Formulae and symbols. These must be written legibly and will be typeset in italics. They should be written or marked as such in the manuscript unless they require different styling. Please use correct designations for standardized DIN regulations.

Title page

- The name(s) of the author(s)
- A concise and informative title
- The affiliation(s) and address(es) of the author(s)
- The e-mail address, telephone and fax numbers of the communicating author

Abstract. Each paper must be preceded by an abstract presenting the most important results and conclusions.

Key words/PACS numbers. Three to five key words should be supplied after the Abstract for indexing purposes.

Additionally, a maximum of three PACS numbers should be included in each manuscript following the keywords. Listings of the PACS numbers can be found at <http://www.aip.org/pacs/pacscheme.html>.

Abbreviations should be defined at first mention in the abstract and again in the main body of the text and used consistently thereafter.

Essential **footnotes** to the text should be numbered consecutively and placed at the bottom of the page to which they refer.

Acknowledgements. These should be as brief as possible. Any grant that requires acknowledgement should be mentioned. The names of funding organizations should be written in full.

Appendices. If there is more than one appendix, they should be numbered consecutively. Equations in appendices should be designated differently from those in the main body of the paper, e.g. (A1), (A2) etc. In each appendix equations should be numbered separately.

References. The list of References should only include works that are cited in the text and that have been published or accepted for publication. Personal communications should only be mentioned in the text.

References should be cited by numbers in square brackets, for example, [5], [5, 7, 10], [5-8]. They should be numbered and listed in the order in which they are cited. In preparing the reference list please adhere to the following format:

For journal articles:

1. Liu, I.-S.: Constitutive equations of extended thermodynamics from a hybrid pair of generation functions. *Continuum Mech. Thermodyn.* 13, 25-39 (2001)

For books:

2. Ibach, H., Lüth, H.: *Solid-State Physics*, Springer-Verlag Berlin Heidelberg (1996)

Authors may also be cited by name in the text, but without initials; here "et al." should be used whenever there are more than two authors, e.g., Preuss et al. [1].

For single contributions in a book:

3. Unger, P.: Introduction to Power Diode Lasers. In: Diehl, R. (ed) *High-Power Lasers*, Springer-Verlag Berlin Heidelberg (2000)

References such as "personal communications" or "unpublished data" cannot be included in the reference list, but should be mentioned in the text in parentheses: this also applies to papers presented at meetings but not yet published or accepted for publication. A date should be given for both "personal communications" and "unpublished data".

Papers which have been accepted for publication should be included in the list of references with the name of the journal and "in press".

Oral communications should only be mentioned in the acknowledgements.

If available the Digital Object Identifier (DOI) of the cited literature should be added at the end of the reference in question.

Example: Dyall K.G.: Relative and non-relative finite nucleus optimized double zeta basis sets for the elements. *Theor Chem Acc* 99, 366-371 (2001) DOI 10.1007/s002149800025

Illustrations and Tables. All figures (photographs, graphs or diagrams) and tables should be cited in the text, and each numbered consecutively throughout. The placement of figures and tables should be indicated in the left margin. For submission of figures in electronic form see below.

Line drawings. Please submit good-quality prints. The inscriptions should be clearly legible.

Half-tone illustrations (black and white and color). Please submit well-contrasted photographic prints with the top indicated on the back. *Magnification* should be indicated by *scale bars*.

Plates. Several figures or figure parts should be grouped in a plate on one page.

Size of figures. The figures can be 15.5 cm wide. The maximum length is 25.5 cm.

Figure legends must be brief, self-sufficient explanations of the illustrations. The legends should be placed at the end of the text.

Springer

Continuation of instruction to authors

Tables should have a title and a legend explaining any abbreviation used in that table. Footnotes to tables should be indicated by superscript lower-case letters (or asterisks for significance values and other statistical data).

For color illustrations the authors will be expected to make a contribution towards the extra costs (approx. € 485 for each article).

4. Electronic submission of final version

Please send only the final version of the article, as accepted by the editors.

Preparing your manuscript

Text. The preferred format is LaTeX. The electronic version should include the original source (including all style files and figures) and a PostScript version of the compiled submission. Authors who prepare their papers with LaTeX are encouraged to use Springer-Verlag's macro package *svjour* for this journal, available under springeronline.com

Illustrations. The preferred figure formats are EPS for vector graphics exported from a drawing program and TIFF for halftone illustrations. EPS files must always contain a preview in TIFF of the figure. The file name (one file for each figure) should include the figure number. Figure legends should be included in the text and not in the figure file.

- **Scan resolution:** Scanned line drawings should be digitized with a minimum resolution of 800 dpi relative to the final figure size. For digital halftones, 300 dpi is usually sufficient.
- **Color illustrations:** Store color illustrations as RGB (8 bits per channel) in TIFF format.
- **Vector graphics:** Fonts used in the vector graphics must be included. Please do not draw with hairlines. The minimum line width is 0.2 mm (i.e., 0.567 pt) relative to the final size.

General information on data delivery. Please send a zip file (text and illustrations in separate files) to K. Hutter, Technische Universität Darmstadt, Inst. für Mechanik, Hochschulstr. 1, 64289 Darmstadt, Germany (e-mail: hutter@mechanik.tu-darmstadt.de) either:

- By e-mail (only suitable for small volumes of data)
- or on any of the following media:
 - On a diskette [you may use .tar, .zip, .gzip (.gz), .sit, and compress (.Z)]
 - On a ZIP cartridge
 - On a CD-ROM

Please always supply the following information with your data: journal title, operating system, word processing program,

drawing program, image processing program, compression program.

The file name should be memorable (e.g., author name), have no more than 8 characters, and include no accents or special symbols. Use only the extensions that the program assigns automatically.

5. Proofreading

LaTeX files are slightly modified during the TeX-editing process so that the general presentation rules of the journal are adhered to. Word files have to be converted and should be proofread carefully by the author. Corrections should be clear; standard correction marks should be used. Corrections that lead to a change in the page layout should be avoided.

Authors should make their proof corrections on a printout of the pdf file supplied, checking that the text is complete and that all figures and tables are included. After online publication, further changes can only be made in the form of an Erratum, which will be hyperlinked to the article.

6. Offprints, Free copy

The corresponding author will receive a complimentary copy of the issue of CMT when the published article appears.

Offprints are available at cost price, provided the order form is returned together with the corrected page proofs.

Copyright Transfer Statement

Springer

Continuum Mechanics and Thermodynamics

The copyright to this article is transferred to Springer-Verlag (for U.S. government employees: to the extent transferable) effective if and when the article is accepted for publication. The copyright transfer covers the exclusive right to reproduce and distribute the article, including reprints, translations, photographic reproductions, microform, electronic form (offline, online) or any other reproductions of similar nature.

The author warrants that this contribution is original and that he/she has full power to make this grant. The author signs for and accepts responsibility for releasing this material on behalf of any and all co-authors.

An author may make his/her article published by Springer-Verlag available on his/her personal home page provided the source of the published article is cited and Springer-Verlag is mentioned as the copyright owner. Authors are requested to create a link to the published article in Springer's internet service. The link must be accompanied by the following text: "The original publication is available at springerlink.com". Please use the appropriate URL and/or DOI for the article. Articles disseminated via SpringerLink are indexed, abstracted and referenced by many abstracting and information services, bibliographic networks, subscription agencies, library networks, and consortia.
