Manuscript submission

Authors should submit their articles to "Journal of Pest Science" online to facilitate even quicker and more efficient processing. Electronic submission substantially reduces the editorial processing and reviewing time and shortens overall publication time.

Please log directly onto the link below and upload your manuscript following the instructions given on screen.

Chief Editor

Dr. Jürgen Gross
Federal Biological Research Centre

for Agriculture and Forestry
Inst. for Plant Protection in Fruit Crops
Schwabenheimer Strasse 101
69221 Dossenheim, Germany
J.Gross@bba.de

Legal requirements

Submission of a manuscript implies: that the work described has not been published before (except in the form of an abstract, or as part of a published lecture, or thesis); that it is not under consideration for publication anywhere else; that its publication has been approved by all co-authors, if any, as well as by the responsible authorities - tacitly or explicitly - at the institute where the work has been carried out. The publisher will not be held legally responsible should there be any claims for compensation.

The "Copyright Transfer Statement" has to be signed and faxed to the publisher together with the corrected proofs (see below) with which it will be provided by the publisher shortly after the manuscript has been accepted for publication.

Manuscript preparation

All manuscripts are subject to peer review and copy editing.

Manuscripts must be written in English and should be typed double-spaced throughout (including acknowledgements, references, tables, and figure legends) with at least 2.5 cm (1 inch) margins. Use a normal, plain font (e.g., Times New Roman) for text.

Use the automatic page numbering function to number the pages.

For indents use tab stops or other commands, not the space bar.

Essential footnotes to the text should be numbered consecutively and placed at the bottom of the page to which they refer.

Genus and species names and words to be emphasized should be typed in italic script or, if this is not available, underlined.

Units and symbols

Temperatures may be expressed in degrees Celsius, time in seconds (s), minutes (min), hours (h), days, etc. Otherwise, the International System of Units (SI, *Système International d'Unités*) should be used wherever possible. [Consult, e.g., U.S. Department of Commerce, National Bureau of Standards, Special Publication 330, *The International System of Units*, latest edition].

Please arrange your manuscript as follows:

Title page

- Including name(s) of author(s), a concise and informative title, affiliation(s) of the author(s), e-mail address, telephone and fax numbers of the corresponding author.

Abstract

- All papers, including Rapid communications, should be preceded by an abstract in which the plant material (binomial including authority) and EC numbers are given.

Key words

- Authors should suggest key words (not more than six in alphabetical order) characterizing the scope of the paper, the principal plant materials (scientific generic names only) and the main topics treated.

Introduction

■

Materials and methods

■

Results

■

Discussion

■

Acknowledgements (if applicable)

■

References

- Literature citations in the text should indicate the author's surname with the year of publication in parentheses, e.g. Carlin (1992); Brooks and Carlin (1992). If there are more than two authors, only the first should be named, followed by "et al."

References at the end of the paper should be listed in alphabetical order by the first author's name. If there is more than one work by the same author or team of authors in the same year, a, b, etc. is added to the year both in the text and in the list of references.

*Journal papers: name(s) and initial(s) of all authors; year; full title; journal title abbreviated in accordance with international practice; volume number; first and last page numbers

Example:

Ülgentürk S, Çanakçıoğlu H (2004) Scale insect pests on ornamental plants in urban habitats in Turkey. *J Pest Sci* 77:79-84

If available, the Digital Object Identifier (DOI) of the cited literature should be added at the end of the reference in question.

Example:

Seidling W (2004) Crown condition within integrated evaluations of Level II monitoring data at the German level. *E J Forest Res* DOI 10.1007/s10342-004-0014-x

*Single contributions in a book:

name(s) and initial(s) of all authors; year; title of article; editor(s); title of book; edition; volume number; publisher; place of publication; page numbers

Example:

Keil TA (1999) Morphology and Development of the Peripheral Olfactory Organs. In: Hansson BS (ed) Insect Olfaction. Springer, Berlin Heidelberg, pp 5-47

*Book:

name and initial(s) of all authors; year; title; publisher; place of publication

Example:

Schwarze FWMR, Engels J, Mattheck C (2000) Fungal Strategies of Wood Decay in Trees. Springer, Berlin Heidelberg New York

Tables and figures

Tables must be numbered consecutively with arabic numerals and submitted separately from the text. They should have a heading explaining any abbreviation used in that table. Footnotes to tables should be indicated by superscript lower-case letters.

Illustrations must be restricted to the minimum needed to clarify the text. All figures (photographs, graphs or diagrams) should be cited in the text, and numbered consecutively throughout. Figure parts should be identified by lower-case roman letters (a, b, etc.). If illustrations are supplied with uppercase labeling, lower-case letters will still be used in the figure legends and citations.

Figure legends must be brief, self-sufficient explanations of the illustrations. The legends should be placed at the end of the text.

Line drawings

- Inscriptions should be legible, with initial capital letters and appropriately scaled to the size of the drawing. Letters 2 mm high are recommended. Scanned line drawings should be digitized with a resolution of 800 dpi relative to the final figure size.

Computer drawings

- Computer drawings are acceptable provided they are of comparable quality to line drawings (minimum resolution of 300 dpi). Computer-drawn curves and lines must be smooth. Lettering must be of high quality; Helvetica is the preferred font. Lettering fonts must be consistent within and among all figures. Halftone illustrations (black and white and color)

- Magnification should be indicated by scale bars. For scanned halftone illustrations, a resolution of 300 dpi is usually sufficient, TIFF is the preferred file format.

Color illustrations

- Color illustrations will always be published in color in the online version. In print, however, they will

only appear in color if the author agrees to make a contribution of Euro 950/US \$ 1,150 (plus VAT) per article. Otherwise the figures will be printed in black and white.

Save color illustrations as RGB (8 bits per channel) in TIFF format.

Vector graphics

- Fonts used in the vector graphics must be included. Please do not draw with hairlines. The minimum line width is 0.2 mm (i.e., 0.567 pt) relative to the final size. EPS is the preferred file format. EPS files must always contain a preview in TIFF of the figure.

Size of figures

- The figures, including legends, should either match the column width (86 mm) or the print area of 176 x 236 mm. In case reduction is absolutely necessary, please state the alternative scale desired. The publisher reserves the right to reduce or enlarge illustrations.

Electronic Supplementary Material

Electronic Supplementary Material (ESM) for a paper will be published in the electronic edition of this journal provided the material is:

submitted in electronic form together with the manuscript

accepted after peer review

ESM may consist of:

information that cannot be printed: animations, video clips, sound recordings (use

- QuickTime, .avi, .mpeg, animated GIFs, or any other common file format)

information that is more convenient in electronic form: sequences, spectral data, etc.

large quantities of original data that relate to the paper, e.g. additional tables, large numbers of

- illustrations (color and black & white), etc.

Legends must be brief, self-sufficient explanations of the ESM. ESM is to be numbered and referred to as S1, S2, etc.

After acceptance for publication, ESM will be published as received from the author in the online version only. Reference will be given in the printed version.

Proofreading

Authors are informed by e-mail that a temporary URL has been created from which they can obtain their proofs. Proofreading is the responsibility of the author. Authors should make their proof corrections (formal corrections only) on a printout of the pdf file supplied, checking that the text is complete and that all figures and tables are included. Substantial changes in content, e.g. new results, corrected values, title and authorship are not allowed without the approval of the responsible editor. In such a case please contact the Editorial Office before returning the proofs to the publisher. After online publication, corrections can only be made in exceptional cases and in the form of an Erratum, which will be hyperlinked to the paper.

Online First

Papers will be published online about one week after receipt of the corrected proofs. Papers published online can already be cited by their DOI. After release of the printed version, the paper can also be cited by issue and page numbers.

Offprints

Twenty-five offprints of each contribution are supplied free of charge. If you wish to order additional offprints you must return the order form which is provided with the proofs together with the corrected proofs to the Production Editor.

Springer Open Choice

In addition to the traditional publication process, Springer now provides an alternative publishing option: Springer Open Choice (Springer's open access model). A Springer Open Choice article receives all the benefits of a regular article, but in addition is made freely available through Springer's online platform SpringerLink. To publish via Springer Open Choice upon acceptance of your manuscript, please click on the link below to complete the relevant order form and provide the required payment information. Payment must be received in full before free access
